HAZARDOUS WASTE EXPORT REPORT**Waste Minimization Statement**

General Chemical Corporation ("Company") is a former licensed Hazardous Waste Storage Facility located in Framingham, MA. The facility stopped receiving waste shipments on March 30, 2012 and implemented waste removal and management unit decontamination operations during the spring and summer of 2012. The company submitted a Closure Report and Certification to MassDEP on November 19, 2012, followed by a Supplemental Closure Certification on March 14, 2013. Although the hazardous waste facility is closed, General Chemical Corporation continues to function as a Large Quantity Generator (LQG) and as an intermediary arranging for exports by other US generators. This annual export report includes information related to intermediary shipments as well as facility (LQG) shipments that were exported during 2014.

As a former TSDF and current LQG, it has long been the Company's objective to reduce its generation of toxic by-products to the greatest extent technically and economically feasible. This effort has been extensively documented over the years in the company's Massachusetts "Toxic Use Reduction Plans."

Management remains committed to evaluating and implementing cost effective process and/or equipment changes which could reduce the toxicity and/or volume of wastes being generated.

No new technologies or practices were employed during the past year with respect to the wastes referenced in this report. Employees have been informed regarding the Company's objectives and their input has been encouraged.

CERTIFICATION

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
